## White's Hoop Skills Amazes Crowd

White leads the Warriors to the District Championship with steady and no-nonsense attitude. The team goes onto to the Regionals but weren't able to keep the winning streak going and they loose to one of the top teams.

**Spring Disbursement of \$1,000 will be made the week of April 26, 2021. Please up-date your address. If you have questions about your address, call Enrollment 701-627-4238.**

**From the desk of Fred Fox, Councilman, East Segment, White Shield, ND 58540**

Hello to all Community Members. I would like to wish everyone a belated Happy Easter and wish everyone a safe and blessed spring season. Tonight we will be having a Easter dinner for the families in White Shield. It's been awhile since we had something for the Community. We also did bikes and gift cards for Easter to the students that attend White Shield School. So all of our elementary students will be riding their bikes around the community.

I would also like send my condolences to all the families that lost loved ones. Our thoughts and prayers are with you. It's been a very tough year and as a community, we always come together to help one another.

Covid-19 has been a struggle for over a year and we have been doing vaccinations in White Shield and majority of vaccinations have been done at EMHC in New Town. So far 560 elders have been vaccinated on the reservation. Also 68% of enrolled members have been vaccinated on the reservation. We will be doing a campaign, as a Tribe, to get everyone vaccinated on the Reservation. We pray to get back to normalcy and don't want to lose any more Tribal

members through COVID-19.

I would like to congratulate our own Jesse White for winning Mr. Basketball and the many other end of the year awards. Jess is the 2nd All-Time leading scorer of North Dakota.

His family had an honoring and the school retired his number, it was a tremendous turn out and hats off to the family for their support and for having such a great honoring for a great young man that has put White Shield on the map.

I also would like to congratulate the boys and girls' basketball teams for their excellent season. Also the boys' basketball team was District Champions this year. We are very proud of both teams. They have showed the hard work and dedication pays off.

The Tribe will be doing disbursements the week of April 26th for \$1,000 for every enrolled member that should be a big help for every family.

We are moving very fast on the new White Shield Community building. They are ahead of schedule by two months. So we are looking at completion at end of summer. Also the Public Safety building will be completed on May 9<sup>th</sup>. We will be operating the Ambulance, Fire and Police Department this summer. The 20-plex is starting to come together and the completion date will be July 15<sup>th</sup>. These three buildings will bring much needed services, such as housing and youth activities to the White Shield Community.

We that said, we will begin two more projects this spring. The new White Shield Clinic will begin this April along with the White Shield School Athletic Complex.

The new clinic will be a state-of-art facility and will have other medical facilities not in the old clinic. Such as optometry, dental, dialysis, mental health, and ambulance drive through.

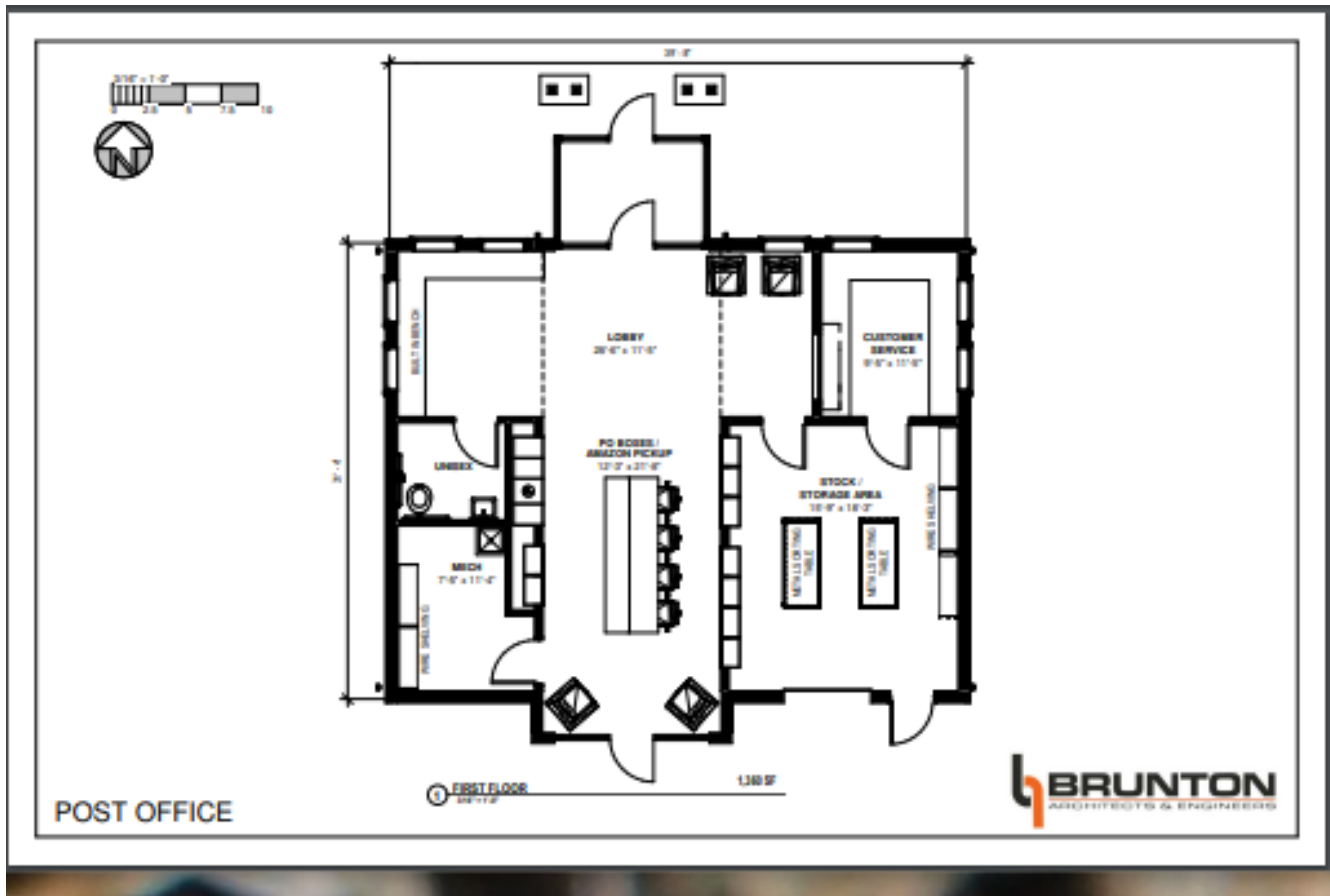

The athletic complex will have a football field/track, baseball field, skating rink, splash pad, skateboard park, and concession/warming house. These projects are long over-due. I will continue to keep fighting for our community. We want to schedule a Segment update soon with COVID-19 restrictions. I need to get a lot of information out to the community due to not having any meetings for over a year due to COVID-19. We will keep everyone informed.

With that I hope everyone has a joyous spring season and travel safe where ever you go, thank you and God Bless.

# Post Office is Proposed for the White Shield Area

Architect's drawings of proposed post office in White Shield.

A new proposed Post Office for White Shield area is on the table as an addition for the White Shield's fast-growing community.

After several discussions and letters to the federal post office officials, it is beginning to look like the area will be getting a post office. We are waiting for a response to our letters. We are hopeful because federal officials seem to agree with our plans and that they will meet the needs of this expanding and growing community, said Larry Trujillo Project Manager.

Currently, people in the White Shield area use Garrison and Roseglen post offices for receiving and sending mail. Our new community serves several new buildings like the new High School, police and ambulance and new apartments and other living quarters. We also have new houses throughout our segment.

Clinic floor plan below. Planned opening scheduled for spring of 2022.

WEAR A MASK

STAY 6 FEET APART

AVOID CROWDS

GET A VACCINE

## When You've Been Fully Vaccinated

How to Protect Yourself and Others

Updated Mar. 23, 2021

[Print](#)

COVID-19 vaccines are effective at protecting you from getting sick. Based on what we know about COVID-19 vaccines, people who have been fully vaccinated can start to do some things that they had stopped doing because of the pandemic.

We're still learning how vaccines will affect the spread of COVID-19. After you've been fully vaccinated against COVID-19, you should keep taking precautions in public places like wearing a mask, staying 6 feet apart from others, and avoiding crowds and poorly ventilated spaces until we know more.

### Have You Been Fully Vaccinated?

People are considered fully vaccinated:

- 2 weeks after their second dose in a 2-dose series, such as the Pfizer or Moderna vaccines, or
- 2 weeks after a single-dose vaccine, such as Johnson & Johnson's Janssen vaccine

If it has been less than 2 weeks since your 1-dose shot, or if you still need to get your second dose of a 2-dose vaccine, you are NOT fully protected. Keep taking all prevention steps until you are fully vaccinated.

# What's Changed

If you've been fully vaccinated:

- You can gather indoors with fully vaccinated people without wearing a mask.
- You can gather indoors with unvaccinated people from one other household (for example, visiting with relatives who all live together) without masks, unless any of those people or anyone they live with has an **increased risk for severe illness from COVID-19**.
- If you've been around someone who has COVID-19, you do not need to stay away from others or get tested unless you have symptoms.
  - However, if you live in a group setting (like a correctional or detention facility or group home) and are around someone who has COVID-19, you should still stay away from others for 14 days and get tested, even if you don't have symptoms.

# What Hasn't Changed

For now, if you've been fully vaccinated:

- You should still take steps to **protect yourself and others** in many situations, like wearing a mask, staying at least 6 feet apart from others, and avoiding crowds and poorly ventilated spaces. Take these precautions whenever you are:
  - In public
  - Gathering with unvaccinated people from more than one other household
  - Visiting with an unvaccinated person who is at **increased risk of severe illness or death from COVID-19** or who lives with a person at increased risk
- You should still avoid medium or large-sized gatherings.
- You should still delay domestic and international travel. If you do travel, you'll still need to follow CDC **requirements and recommendations**.
- You should still watch out for **symptoms of COVID-19**, especially if you've been around someone who is sick. If you have symptoms of COVID-19, you should get tested and stay home and away from others.
- You will still need to follow guidance at your workplace.

# BASKETBALL
